

RISM is a national professional body incorporating four surveying disciplines, namely, Building Surveying (BS), Geomatic & Land Surveying (GLS), Property Management, Valuation & Estate Agency Surveying (PMVS) and Quantity Surveying (QS). Its current membership stands at close to 9,000 surveyors from the corporate arena, the public sector and the academia.

RISM organises the International Surveyors' Congress (ISC) annually since 1999. This ISC is the 18th in the series. The theme for this event is ***The Resilient Professional – Thriving in a Changing Economy.***

This 18th ISC aims to look into the fast changing international and domestic economic landscapes in the light of the volatility in the financial, commodity and currency markets; and the transitory advantages business participants can exploit to improve their organisational effectiveness.

Besides the Keynote Address, the first one and the half days will bring participants to 5 Plenary Sessions. The second half of Day 2 is dedicated to topics much related to the four surveying disciplines in RISM. Speakers are from domestic and international arenas.
