*YBhg. Dato' Sr Sri Kandan,*

## Speakers

*YBhg. Datuk Sr Charlie Chia Lui Meng, DPSM, FRISM*

**Dr. Noor Suzaini Binti Mohamed Zaid** is currently teaching at the Department of Building Surveying in Faculty of Built Environment, University of Malaya. Suzaini holds a PhD degree in Planning and Urban Development from the Faculty of the Built Environment, University of New South Wales. She has teaching experience in the fields of building surveying, urban planning, and sustainable development. Her current research interest focuses on energy efficiency, zero-carbon development, climate change mitigation and adaptation in built environment.

Dr. Noor Suzaini was part of the testing of the United Nations Environment Programme's Sustainable Building and Climate Initiative (UNEP-SBCI)'s Common Carbon Metric and Protocol tool Pilot Test Phase 1 and Phase 2 in the Malaysian context, through her PhD research. Her research was conducted in collaboration of the Ministry of Higher Education Malaysia, University of New South Wales, UNEP-SBCI, and the City Hall of Kuala Lumpur. Her research project includes SULED-BIM: Sustainability Led Design through Building Information Modelling with collaboration with University of Manchester under the 2015 UK Newton Fund. Other projects she is involved in are within areas of carbon abatement, solar energy, green buildings, housing affordability, acoustic properties of residential buildings, and housing and rehabilitation.
