Dato' Sr Mani Usilappan is a Registered Valuer and a Chartered Surveyor with more than 40 years of experience. He was the past President of Royal Institution of Surveyors Malaysia (RISM) and has been actively involved with RISM by giving numerous talks and participation in workshops and seminars relating to present professional practices.

The Federal Court decisions in Semenyih Jaya Sdn Bhd versus PTD Ulu Langat in 2018 ("the Semenyih case") are few examples of how valuation principles and practices have been compromised by misinformation. In this talk, Dato' Sr Mani will share some of the court decisions that have affected the valuers and then go on to explain on the valuation principles to incorporate implications on planning, legal, disturbances, losses in business and other allowable claims.
